

Dockets Management Branch (HFA-305)  
Docket No. 98N-1265  
Food and Drug Administration  
5600 Fishers Lane  
Rockville, MD. 20857

I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

COMMENTS: This piece of legislation is another example of the commercial pharmaceutical manufacturers attempt to control + monopolize this industry. If all pharmaceutical companies would focus on providing a larger variety of bioidentical hormones from natural sources, people would not have to go across state lines to get what they need. The FDA should not be influenced by the money driven pharmaceutical companies that are strongly pushing this. This legislation protects no one except the already extraordinary wealthy commercial pharmaceuticals.
